	AFAC	Helping EM services professionals & researchers to get their message through

Who is Andrew Huffer?

...A highly experienced facilitator and stakeholder engagement consultant with 24 years facilitation experience and over 18 years in business.

Which means that in this time, I've most likely worked with organisations, teams or communities just like yours to deliver facilitation, team development and stakeholder engagement services in a range of sectors right across Australia and overseas.

You'll get the benefit from my practical experience that includes the delivery of *over 900 workshops* using participatory approaches to actively involve all people in contributing to effective outcomes.

You will see that my approach is simple and forthright, resulting in a strong track record in helping clients to make sound decisions and implement lasting solutions.

In addition to running my own consultancy business, I have been a partner in two café businesses with my wife, Georgie, for almost 14 years. This has provided valuable *hands-on experience* in business management, promotion and management of staff that can be drawn upon in working with your team.

And, as an active member of a Business Mentoring Group, I'll be able to share an ongoing flow of ideas and practical, tested, real-world tools that you can utilise in your world.

When we work together, you'll have the comfort of working with someone who constantly strives to 'sharpen their saw' by seeking new knowledge and understanding. I regularly attend and present at a range of state, national and international conferences and professional development programs relating to facilitation, stakeholder engagement and event design and marketing.

SNAPSHOT OF EVENTS AND WORKSHOPS FACILITATED
